A. PRESCRIPTION:

1. This harvest has a thinning prescription with an estimated average residual basal area of 99 ft²/acre.

B. HARVEST REQUIREMENTS:

1. Cut all pine and other species in every third row (cut one row, leave two rows). Cut rows are not marked with paint. Logger will determine cut rows to the satisfaction of the Sale Administrator.
2. Leave and avoid damage to all residual trees.

C. OPERATIONAL REQUIREMENTS AND SEASONAL RESTRICTIONS:

1. The boundaries for this sale include red painted line to the northwest and parts of the east line, freshly planted pine to the north and to the west, trail to the east, and the fuel break to the south.

3. Harvested pine cannot be kept on the Bayfield County Forest for more than three weeks from May 1st to August 31st.
4. Do not cut snags except for individuals that pose a safety hazard.
5. Utilization specification is to a 4" top. However, if the County determines that pulpwood markets continue to be very poor at the time of harvest the County will sign a contract amendment with the purchaser changing the utilization specification to a 5" top for selected species. When determining condition of the market, the County will pay particular attention to the amount of wood being purchased by the mills in Wisconsin Rapids and any other significant shifts in wood demand.

D. ACCESS AND ROADS:

1. This contract requires County authorization for all road/landing construction and places a number of other requirements on road construction and closure.
2. Decking of wood along town roads will not be allowed without permission from Bayfield County.

E. OTHER:
